Lyophilized powder
For Intravenous use only

Each sterile ampoule contains 500mg of Dacarbazine USP, Citric Acid or Mannitol or Sodium Hydroxide or Hydrochloric Acid.
Dosage: As directed.
Storage: Store in the original container between 20° and 46°F (6° and 8°C).
RECONSTITUTION: Add 50mL of Sterile Water to give a concentration of 10mg/mL Dacarbazine.
Note: Use within 8 hours. Keep medicine cool.
